Superfund Enforcement Assessment Section (6SF-TE)
U.S. EPA, Region 6
1445 Ross Avenue
Dallas, Texas 75202-2733

Attn: Mr. Lawrence Andrews, Enforcement Officer

Re: Gulfco Marine Maintenance Superfund Site, Freeport, Brazoria County
Texas SSID No. 06JZ, Request for Information under CERCLA 104(e)
Marmac LLC d/b/a McDonough Marine Service Supplemental Response
Chalos & Co. Ref: 2253.001

Dear Mr. Andrews:

We are counsel for Marmac LLC d/b/a McDonough Marine Service (MMS) and write to supplement MMS's initial response to the Environmental Protection Agency's (EPA) Request for Information, submitted on May 7, 2012. In continuing to review its files for non-electronic records responsive to the EPA's request, MMS identified several boxes of barge maintenance records for barges previously owned by MMS. In light of the information contained in these additional records, MMS now provides the following supplemental response to questions four (4) and five (5) of the information request.

4. *Identify and include a brief description of the nature, timeframe(s) and status of the Respondent's business relationships with Gulfco Inc., Gulfco Marine Maintenance, Inc., Fish Engineering and Construction, Inc., Hercules Marine Services Corporation, LDL Coastal Limited L.P., LDL Management LLC, and any other previous or current owner or operator of the site.*

Upon a review of MMS's available non-electronic records, MMS has uncovered an invoice issued by Fish Engineering and Construction, Inc. on October 3, 1988, for barge repair services completed between August and September 1988. The invoice indicates that Fish Engineering and Construction, Inc. was located in Houston, Texas. However the invoice does not state where the repairs actually took place.

As previously advised, MMS chartered three (3) barges to Hercules Offshore Corporation between 1984 and 1989. In addition, the barge maintenance records recently identified by MMS reveal that twelve (12) barges formerly owned by MMS were

repaired at Hercules Offshore Corporation's Freeport, Texas yard between March 31, 1989 and October 3, 1991. MMS no longer owns any of the barges that were repaired by Hercules Offshore Corporation. Additionally, the services conducted by Hercules Offshore Corporation were limited to barge repairs, and MMS has no knowledge of any of its barges being cleaned by Hercules Offshore Corporation.

5. *Identify all transactions with the Site owners and/or operators of the Site that resulted in materials being sent to the Site by you for any purpose, including but not limited to barge cleaning. Identify and provide all documents related to each transaction, including but not limited to invoices, manifests, shipping papers, bills of lading, receipts, log book entries, trip tickets, work orders, contracts, documents showing the nature of the materials involved, and any EPA and/or State environmental filings or correspondence. For each transaction, identify and state:*
- a. The type and purpose for the transaction;*
 - b. A description of the materials involved, including their quantity and chemical content and characteristics;*
 - c. Any amounts paid by you in connection with each transaction;*
 - d. The date of each transaction; and*
 - e. The date the materials were sent to the Site.*

Upon a thorough review of its non-electronic records, MMS has now located twenty-one (21) invoices indicating that MMS arranged for one (1) barge to be repaired by Fish Engineering and Construction Inc. and twelve (12) barges to be repaired by Hercules Offshore Corporation. All of the barges repaired were deck barges which transported mostly gravel and sand, and would not have knowingly transported any type of hazardous chemicals. Additionally, each invoice specifically identifies the repairs completed. We have attached these invoices as *Exhibit B*. Each invoice was signed by an employee of MMS that has been deceased for a number of years and thus unavailable for an interview. We discussed these invoices with the current President of MMS, Patrick Stant, who advised that there are no current MMS employees familiar with these transactions. Aside from these invoices, MMS has been unable to locate any other documentation regarding these transactions.

Between August and September 1988, MMS arranged to have barge M-556 repaired by Fish Engineering and Construction, Inc. An invoice in the amount of USD 3,020.00 was issued on October 3, 1988 for various barge repairs. As mentioned above, the invoice does not indicate where barge M-556 was repaired.

Between March 31, 1989 and October 3, 1991, MMS arranged to have twelve (12) barges repaired by Hercules Offshore Corporation at their Freeport, Texas yard. MMS has been unable to locate any correspondence regarding the exact date the barges arrived in Freeport, Texas for the repairs to begin. The below table includes the date Hercules Offshore Corporation issued their invoice, the barge number, and the amount remitted for each of the twelve (12) barge repairs.

	Invoice Date	Barge	Amount Paid (USD)
1	March 31, 1989	M-515	9,533.20
2	March 31, 1989	M-902	10,529.75
3	March 31, 1989	M-555	9,245.00
4	April 28, 1989	M-904	13,073.40
5	May 31, 1989	M-556	9,249.80
6	July 20, 1989	M-554	4,819.24
7	September 29, 1989	M-593	1,541.25
8	September 30, 1989	M-902	4,834.44
9	October 31, 1989	M-904	3,147.33
10	December 27, 1989	M-906	11,076.72
11	January 31, 1990	M-571	11,983.39
12	January 31, 1990	M-903	4,473.53
13	January 31, 1990	M-572	4,314.70
14	January 31, 1990	M-554	3,335.12
15	March 5, 1990	M-515	2,501.26
16	March 5, 1990	M-906	1,733.40
17	January 23, 1991	M-572	7,012.17
18	May 7, 1991	M-571	1,650.25
19	July 16, 1991	M-571	7,604.80
20	October 3, 1991	KS-522	26,329.90

Please do not hesitate to call on us if there are any other questions or issues which the Environmental Protection Agency seeks supplemental information or clarification. Of course, we, on behalf of MMS, respectfully reserve all rights to supplement this response as and when any additional responsive materials are identified.

Respectfully submitted,

CHALOS & Co, P.C.

George M. Chalos
Melissa Patzelt-Russo
